NOTE TO SUPES AND DEPARTMENT HEADS ON THE PURPOSE AND CONDUCT OF THE COMP:

I feel that the most important members of WYBC are (1) Supes and (2) Department Heads. Your jobs in these two offices are the most vital, most demanding, and most rewarding functions in the station. Since you men will be dealing directly and personally with WYBC's 1965 heelers, you will be training the supes and department heads of the future.

Therefore, I would like for you to set the following two goals for yourselves and your heelers in this comp:

SUPES: Aim at making your heelers into confident, sonscientious, competent members like yourselves. In short, they must be of the quality demanded by the office of Daily Supervisor, they must gain sufficient knowledge and ability in every phase of programming, engineering, and administration to be able to run a high-quality day of tasteful broadcasting. Let your own understanding wisdom and personality influence the heeler's.

DEPARTMENT HEADS: You men are specialists in your field; your heelers should be likewise. Train them and evaluate them on the basis of whether or not they would be good department heads.
